BESTWORK / FLOORING

Oak parquetry at room scale

Each drawing shows the same 3.6 m × 2.1 m floor area. Compare how the joints repeat across a doorway or an open room. Shading separates boards and does not indicate stain.

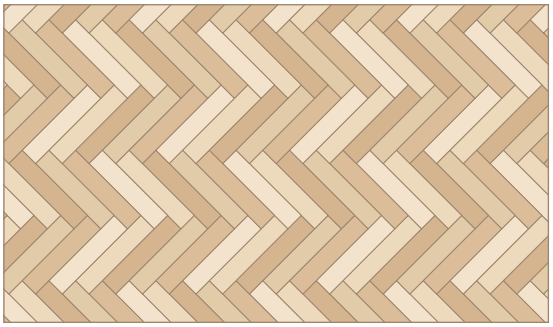

Single herringbone

450 × 90 mm / One board per arm

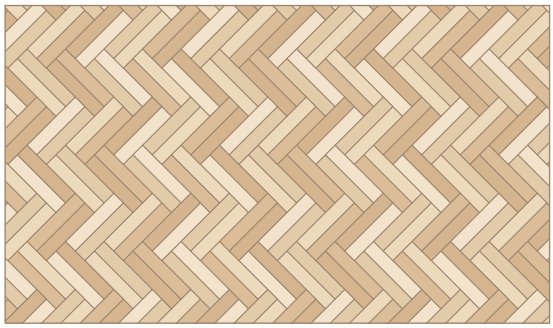

Single herringbone

610 × 125 mm / Longer, wider repeat

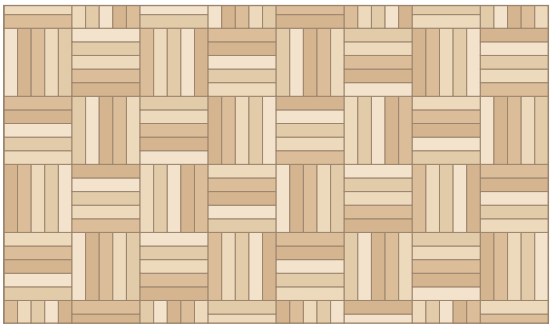

Double herringbone

450 × 90 mm / Two boards per arm

Basket weave

450 × 90 mm / Five boards make a square

Check the print scale

Print on A4 at Actual size (100%). The line below should measure 20 mm, equal to 1 m of flooring.

1 m at 1:50

Choose the block, then price the floor

Both solid oak blocks are 18 mm thick and supplied raw. For a quote, include the chosen layout, measured area and delivery postcode. Confirm cuts, borders and setting-out with your installer.
